

Vala — Make and Print List

0 pieces to print, 3 to make by hand. Everything on this sheet is built in-house; everything bought is on the shopping list.

THIS FILE IS GENERATED FROM `outfits.yaml`. That file's components: `list` is the source of truth. Do not edit this sheet to record a decision — edit `outfits.yaml` and run `./tools/build-lists vala`. Sizes are approximate and several are estimated from assumed dimensions; confirm against the real patterns and against the performer before committing to a print run.

Made by hand — not printed

Do not print these. Each one has to move, flex or be fitted to the performer, and a printed shell is the specific failure recorded against them.

1. Calf wraps — sand cloth, both legs · layer 3

Made ×2. *Built.*

Both calves, crossing wrap, ankle to below the knee.

From the specification: Sand-coloured cloth wound from ankle to just below the knee, crossing over itself. ONE OF THE TWO ARENA ELEMENTS — the faction document specifies "reinforcement at the forearms and shins" and this is the shins. Both legs, not one. They will need re-wrapping between takes and should be photographed wrapped before the shoot so the pattern can be repeated.

2. Shawl-cowl — heavy olive knit, frayed, tasselled · layer 9

Made ×1. *Built.*

The drape, the fray and the tassels.

From the specification: Coarse olive knit, deliberately frayed, hanging in long yarn tassels. Worn over one shoulder and pulled up as a hood when needed. THE SOFTEST AND MOST HAND-MADE THING ON HER, and the piece that makes her read as somebody who has been surviving rather than fighting. A DOUBLE WILL BE NEEDED if it gets wet or muddy on the shoot — knit this heavy does not dry between set-ups.

3. THE CLASP — dark disc, eight-pointed sun · layer 10

Made ×1. Built.

The device, at the size it reads on camera. Eight points, central ring, steel showing through where it has worn.

From the specification: Dark round disc, raised EIGHT-POINTED SUN around a central ring, worn steel through a blackened finish, roughly the size of a large coin. Pins the cowl at the shoulder. THIS IS THE LONGEST-LIVED HERO PROP IN THE PROJECT. Planted-Elements P3: Vala gives it to Shin in Sc.22, Shin wears it for the rest of her life, and it is the object she looks at immediately after killing Vala in Film 2. REQUIRED OF IT: build a SECOND ONE before the shoot — it changes hands on camera and one of them has to survive three productions. Photograph both properly now, and ARCHIVE, never strike.
