

Vala — Shopping List

7 items to buy secondhand. Estimated £0–0 against a £100 cap. The cap covers bought items only — filament, paint, leather, dye and any make-up are materials and are budgeted separately.

NO LINKS, ON PURPOSE. Supplier links and prices live in the production's Drive, not in this repository — decided 2026-08-01, because listings sell, shops close and prices double, and a sheet full of dead links is worse than none because somebody trusts it. What is here is durable: what to search for, where, what to filter on and what to refuse. Paste the search terms in yourself.
